.... and A World in Waiting rounds them all off!

It's a chance to look back on the achievements of EY2010, but it's also a launch pad for practical change. A day for representatives from across the UK and Europe, contributors who are experiencing poverty & exclusion, and those in government or working on the ground with related issues. To harness their energy and passion, we'll be running an **Open Space** workshop for 1200 people. Open Space is about working together, having a voice, unleashing collective creativity and having fun at the same time. The day is entirely YOURS!! You set the agenda. You suggest the topics for discussion. You move to another group whenever you choose. And you decide on the answers!!

Could this be the Big Society in action?!
